PROFESSIONAL SUMMARY

As a passionate software developer with more than 3 years' experience, I have extensive knowledge using MERN stack, SQL, Python, and C# to develop robust and scalable applications. I have wonderful team work and collaboration skills having worked with friends on various projects.

Am a hardworking individual who is able to multitask with different technologies and deliver on time with no supervision. My critical thinking skills enable me to identify risks and enhance problem solving. Generally, I am a quick learner able to cope with both the rapidly changing technology and client's changing requests

EXPERIENCE

2020-2023 FREELANCE COMPUTER PROJECTS

- Helped develop a web application for a healthcare provider using MERN. The application allowed patients to book appointments and view their medical records
- Helped design a web application for a social media marketing agency using MERN stack. The app enabled users to manage their social media accounts and analyze their performance.
- Developed a custom e-commerce website for a small business using HTML, CSS, and JavaScript, with a backend built on PHP and MySQL.
- Created a Python script that extracts data from PDF invoices for a retail company. The data is stored in a SQL database and used for inventory management.

2020-2022 UNIVERSITY PROJECTS

- Automated Timetable Generator – using PHP
- Virtual assistant – offline and online virtual assistant using python

2020-2023 PERSONAL PROJECTS

- Disney Plus clone
- WhatsApp clone
- Instagram Clone

EDUCATION

2019-2022 KCA UNIVERSITY

Pursued a bachelor's degree in Software Development

2015-2018 ALLIANCE HIGH SCHOOL

Started and ended my Secondary School education, where I developed interest in technology

2013-2014 KERICHO BOYS BOARDING PUBLIC PRIMARY

Provided the basis for my hardworking ability, where I excelled in KCPE examinations

ADDITIONAL ACTIVITIES

- Participated in a coding boot camp for high school students in collaboration with local NGOs and tech companies.
- Attended the annual Nairobi Tech Week and various workshops on emerging technologies.
- Participated in a hackathon organized by KCA University
